

## **TGT – Physics**

Secondary level Physics teaching has a responsibility for building foundational subject understanding through structured classroom explanation and demonstration-based learning.

### **Key Responsibilities**

1. Graduate/Postgraduate in Physics with B.Ed and 3–6 years of teaching experience at the secondary level.
2. Present Physics concepts with clarity using demonstrations and classroom experiments to reinforce theoretical instruction.
3. Ensure systematic delivery of the prescribed syllabus in alignment with grade-level academic expectations.
4. Conduct periodic assessments and maintain academic records in accordance with institutional requirements.
