

PGT – Physics

Instruction at the Senior Secondary level in Physics encompasses theoretical depth, structured practical work, and systematic preparation aligned with board and competitive examination requirements.

Key Responsibilities

1. Postgraduate in Physics with B.Ed and 5–8 years of relevant teaching experience at the senior secondary level.
2. Deliver comprehensive Physics instruction, ensuring strong conceptual clarity through application-based problem solving and analytical discussion.
3. Plan and conduct laboratory sessions as per the prescribed curriculum, ensuring adherence to safety norms and practical evaluation standards.
4. Prepare students for board and competitive examinations through planned syllabus coverage, structured revision, and assessment strategies.
