

PRT – Maths

Primary Mathematics teaching responsibilities include delivering concept-based instruction and developing strong numerical understanding among students at the elementary level.

Key Responsibilities

1. The educator should hold a Graduate degree in Mathematics with B.Ed and relevant teaching experience of 2–5 years.
2. Explain mathematical concepts using practical and engaging classroom approaches to support conceptual clarity.
3. Strengthen students' numeracy skills through structured practice and guided problem-solving exercises.
4. Design and conduct assessments, and provide remedial support to students where necessary.
5. Participate in curriculum planning and academic coordination within the Mathematics department.
